

UCER is a professional Chinese manufacturer of conveyor belts and conveyor chains with own capability of product development, research, and design. The products are widely used in automobiles, agricultural machinery, forklifts, escalators, forestry and paper making, construction machinery, metallurgy, cement, mining, food, and other fields, supporting many well-known enterprises at home and abroad.

DRIVE CHAINS

Typical products: Short pitch precision roller chains, High strength short pitch roller chains, Corrosion resistant short pitch roller chains, etc.

APPLICATIONS:

ENGINEERING CHAINS

Typical products: Automobile production line chains, Conveyor chains for steel mill, sugar machine chain, stacker reclaimer chain, etc.

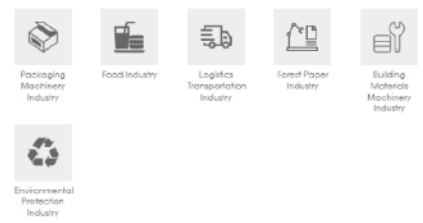

APPLICATIONS:

CONVEYOR CHAINS

Typical products: short pitch roller chain, double pitch conveyor chain, long pitch conveyor chain, food packaging machinery chain, hollow pin chain and accessories.

APPLICATIONS:

AUTOMOBILE CHAINS

Typical products: Timing system for automobile engine, Automobile transfer case/transmission chain

APPLICATIONS:
